

Attention Property Owner/ Responsible Party of _____

Starting in 2008, a new state mandate requires your property to participate in an annual maintenance verification and periodic inspection process for storm water treatment devices that are installed on this property.

In about one week, you will be receiving a letter with instructions on the next steps required from you. The letter will contain a maintenance verification form pertaining to the treatment device(s) on the property referenced above.

You must return the completed form to the City Storm Water offices in the postage paid envelope that will be provided.

In the coming months, the storm water treatment devices on your property may also be inspected by the City of San Diego or by D-MAX Engineering, Inc., a consultant authorized by the City to conduct physical inspections of these devices.

If you are not the owner or responsible party of the referenced property, please contact the City's consultant, D-MAX Engineering, Inc., at **(858) 586-6600** or email at **swppp@sandiego.gov**.

For more information about storm water treatment controls visit:
<http://www.sandiego.gov/thinkblue/devconregs.shtml>
or call (858) 541-4300.
